Scanco Multi-Bin Version 7.0011

Sage Version 7.00.1.0

August 2021

<div style="border:1px solid black; padding:10px;">

Release Notes for Scanco Multi-Bin 2021.1 Version 7.0011

The following is a list of corrections and selected enhancements added to Scanco Multi-Bin 2021.1 Version 7.0011.

Product updates are cumulative; in other words, this update includes all enhancements, corrections and programs found in Sage Scanco Multi-Bin 2021 versions 7.0001 and 7.0011.

Before installing Scanco Multi-Bin 2021.1 version 7.0011, install Sage 2021.1 version 7.00.1.0. Refer to the Scanco Multi-Bin Installation Guide.

⚠️ **Warning:** Hot fixes may be available for Scanco Multi-Bin version 7.0011. Refer to the Scanco Multi-Bin Installation Guide.

⚠️ **Warning:** Install Scanco Multi-Bin 2021.1 version 7.0011 into a parallel test Sage 100 environment. Performing a test upgrade or a test new install allows you to resolve issues that may occur during the live upgrade or live new install, reducing downtime and allows you to get a rough estimate of how long the upgrade process will take. Refer to the Sage Knowledgebase article ID 101266 for more information. As not noted in the Sage Knowledgebase article before step 20, third party products must be re-installed after a migration.

⚠️ **Warning:** Scanco Multi-Bin 2021.1 version 7.0011 may not be compatible with non-Scanco third party products. If you use third-party products that integrate with your Sage product, check with the vendor of your third-party product to ensure their product is fully compatible with this release. If you integrate with other Sage products, check with your business partner or Sage to ensure that these components are compatible.
